

Soul Meets Mind

Lyrics by Christian Lander 2021-03-28

Hallo – who are you – what is your name
Hej man - don't you know – we are the same
It's me - I am your spirit – and you are my conscious mind
Please to meet you – I am sure – we are one of a kind
Let's get out there – and explore – come on – let's give it a go

I am alive
Making footprints in the sand
I am alive
Playing in that rock & roll band
I am alive
Riding cross this open land
Jippii, jippii jey ooo - I'm alive, it's so cool
Jippii yea, jippii jey ooo – I'm alive

Look at me – now – here I am
I'm living my life – to the best I can
I know – it is now – this is my chance
It's today and not tomorrow – that we got to dance
Let's make sure – they all hear - that we are around

I'm "gonna" live for ever
I never ever "gonna" die
I'm "gonna" live for ever
I am gonna fly and get real high
I am gonna fly and get real high
I am gonna fly and get real high
My life - will never be a lie
Jippii yea, jippii jey ooo – I'm alive

Look at me now - I can see my reflection in the sky
Look at me now - I never ever wanna die
I wanna live forever - I never ever wanna die
I wanna live forever - please never ever let me die
