

Somewhere – space edit

Lyrics by Christian Lander. 2021.02.05

Somewhere, out there
I know, you are there
I can feel you inside of me

I need to find you
I know, I'm gonna find you
I can tell you are a part of me

I'm gonna search on every planet
In every galaxy in the universe
I know we are meant to be

Nothing, nothing can ever stop me
No matter what comes in my way

I gonna find you baby
Oh, Yes I am
Cause finally
Yes, finally
Finally it must be you and me
