Somewhere, out there  
I know, you are there  
I can feel you inside of me

I need to find you  
I know, I'm gonna find you  
I can tell you are a part of me

I'm gonna search on every planet  
In every galaxy in the universe  
I know we are meant to be

Nothing, nothing can ever stop me  
No matter what comes in my way  
I gonna find you baby  
Oh, Yes I am  
Cause finally  
Yes, finally  
Finally it must be you and me
