

Ocean of Eternity

Lyrics by Christian Lander, 2020.12.16

When the universe within
Beyond a conscious mind
Where the heart of a soul
Is calling out for company

Like the echoes of a dream
Never lived nor ever seen
As the ocean settles to rest
Stretching out into eternity

When the universe within
Marries the ocean of eternity
You know you're home
My friend, you know you're home

Life is like a winding river
Wild, angry, happy as calm
Making its way to the sea
Longing to kiss the ocean

When the universe within
Marries the ocean of eternity
You know you're home
My friend, you know you're home

Time is never and forever
When the universe within
Now escorted by Love itself
Marries the ocean of eternity

When the universe within
Marries the ocean of eternity
You know you're home
My friend, you know you're home
My Lord, I know I'm home
