

# Moonlit night

---

Lyrics by Christian Lander. 2021.03.20

This moonlit night belongs to us  
In each other's arms we are one  
A million stars as our witnesses  
Sees us unite with the heaven

The magic we make / tonight / is ours / is ours / forever  
The magic we make / tonight / is ours / is ours / forever

In this warm and peaceful night  
The sea is resting soft and quiet  
The wind is but a friendly breath  
Some bird makes a silent landing

The magic we make / tonight / is ours / is ours / forever  
The magic we make / tonight / is ours / is ours / forever

Heaven has opened the doors for us  
Tonight we are home in paradise  
Be with me like this my dearest  
Also beyond this world and time

The magic we make / tonight / is ours / is ours / forever  
The magic we make / tonight / is ours / is ours / forever

Morning wakes the sounds of life  
An early fishing boat goes to sea  
The magic made tonight is ours  
This love can never be undone

This moonlit night belongs to / us / my dear / to us / forever  
This moonlit night belongs to / us / forever / forever / my love  
This moonlit night belongs to / us / forever / forever / my love
